

RAPPORT – Första terminen vid universitetet i Viet Tri

STUDERANDE Pham Ngoc Thuong – Thanh Ba, Vietnam

Thuong började sina studier i oktober 2020 vid universitetet i Viet Tri

Dear my sponsors from BFA Organization.

My name is Pham Ngoc Thuong, currently sponsored by my sponsors in the organization BFA. Thanks to the interest to help me. I am happy to tell you that I started my university studies in October 2020 at Hung Vuong University and my I am studying the program Social Sciences.

The university open the 9th of September but my studies was delayed because of my situation. The university and center supported me to investigate so that my environment would work for me due to my disability.

I am very grateful when in August, I received an electric wheelchair from FFBB / BFA. It helps me a lot in everyday life. FFBB / BFA has also helped me with a computer so that I can easily follow my teaching.

Life at university is a little different than in high school and we not only have a classroom but we move between different lecture halls. The center helped me to find a proper room to rent where I live with my grandmother. Every second week we go back for a short visit to our home in Thanh Ba.

Recently, I spent the first semester of my first year at university and fortunately I have successfully completed my duties with good academic results and ranked second in the class. Please see my result below.

My life now is very good, my grandmother is still the one who takes care of me and stays by my side. In class, teachers and friends are very interested in me and they are ready to help me anytime, anywhere. I am very thankful to FFBB / BFA organization and my sponsors have always accompanying me, enthusiastic, caring and helpful to me, I am very grateful to the organization. Here is my result from the first term of studies:

Social anthropology: 8.9

Lifestyle and population groups: 8.0

Probability Statistics : 4.7

Introduction to Logics : 8.7

Việt Nam - Cultural facilities : 8.5

Introduction to Laws : 8.2

(Maximum rating is 10)

I promise to try to study better so that I do not disappoint of everyone in the organization. As you see my lowest grade was in Statistics but I promise to try to do better.

I am sitting in my new electrical wheelchair – having lecture

A very happy day when I received my electric wheel chair

Opening day at the university

Dir Tuyen Thanh Ba center and my grandmother.
